Friday afternoon the life of Beethoven was discussed and the work brought up by members was usually good for a first meeting. Special mention should be made of the excellent paper read by little Miss Mary Alexander. The ease and briefness which she sketched the life of the great Master, dwelling just long enough on each stage of his life, from the misery and pathos of his childhood to his wild and rather appropriate death scene to make it impressive was worthy of the work of a more experienced person. It was agreed that the next Master discussed would be Robert Schuman. Toward the latter part of the afternoon a little social feature was indulged in after which the club adjourned, having spent a pleasant and most profitable afternoon.

## Bowmer--Moorman Wedding

Brilliantly Solemnized Last Night

Beautiful in all its appointments was the wedding of Miss Marion Hawes Bowmer and Mr. Charles Wicklife Moorman which was solemnized last night in the Methodist Episcopal Church South. Masses of autumn foliage characterized the decorations, the chancel being brilliantly decorated in rich red, green and yellow leaves. Graceful branches of the foliage were banded densely around the altar and the scene was an ideal October creation.

Just before the bridal party arrived Miss Ida White rendered a brief musical program for the guests who were ushered into the auditorium by Messrs. James Skillman, of Owensboro, Tom Bowmer and Wm. Bowmer of Louisville, and Mr. Chas. Skillman of this city. Only the relatives and out-of-town guests sat under the ribbons which were held by little Misses Elizabeth Sherman, of Toledo, Ohio, Eleanor Barker of Louisville, and Master Billy Minary of Benton Harbor, Michigan.

Miss Jean Todd of Owensboro, was maid of honor and Miss Madison Bell, of Louisville, was bridesmaid. They wore exquisite white dresses and carried large bunches of yellow chrysanthemums tied with plumosa. Promptly at nine o'clock the bridal party entered the church and the Rev. B. M. Curry officiated in the ceremony. The bride looked very charming in a handsome white lingerie gown and carried a magnificent bouquet of bride's roses and lilies of the valley. Her veil was caught back with orange blossoms.

An elegant reception followed at the home of the bride. Several who attended the wedding of Mr. and Mrs. Bowmer were present. Last evening

was also the forty-fourth anniversary of their marriage. The home was most attractively arranged for entertaining the guests and the color-scheme, yellow and white, was prettily carried out in every detail. Especially gorgeous was the dining room. Streamers of white tulle and smilax hung from the chandelier and were tied to the candlesticks on the bride's table, in the center of which was a huge mound of yellow chrysanthemums. Misses Irene Jarboe and Margaret Skillman carried French bouquets of red carnations and presided at the frappe bowls. The ices were yellow and white, the cakes were white with lovers knots of yellow candy.

Mr. and Mrs. Moorman left on the West bound train at eleven o'clock for a short wedding tour after which they will be home at Versailles, Ky.

Among the out-of-town guests were Mr. and Mrs. Chas. K. Minary, of Benton Harbor, Mich., Mrs. Hugh Atkinson, of Chicago, Mrs. John Burks, of Louisville, Mr. and Mrs. Walter Sherman, of Toledo, Ohio, Mr. and Mrs. Robert Todd, of Versailles, Misses Katherine and Adelia Moorman, Miss Anna McComb of Louisville, Mr. Richard Wathen, of Bardston, Mr. and Mrs. Morris Beard, Dr. and Mrs. John Kincheloe, Mrs. Manie Moorman, of Hardinsburg, Mrs. Margaret Bennett of Henderson, Mrs. Leister and Miss Evelyn Young, of Morganfield.

## "THE RIGHT OF WAY."

Macaulay's Theatre Will Present

An Excellent Play Next Week

For Three Nights.

Guy Standing and Theodore Roberts in their famous roles of Charley Steele and Joe Portuguese in Klaw & Erlinger's great production of Sir Gilbert Sullivan's dramatic story, "The Right of Way" will be the attraction at Macaulay's Theatre, Louisville, Ky., the first half of the week of October 26, with a matinee Wednesday.

Mr. Eugene Presbury, the adapter, draws a character equal in mental attainments, pagan to a degree, and primarily deficient in power to love and ability to find contentment. After a lapse of memory continuing through three years, as opposed to seven months in the novel, Steele is restored to his normal state, and not only recollects all of his past, but also realizes fully that he has found pure, genuine love in the interim. This is the radical change from the original story and constitutes the keynote of the play. The combat is not now one of the new against the old for all time, but one of right against wrong, as it applies to love, the only thing worth while in the eyes of the man.

## CHAPTER XVI.

**D**ROOM'S intentions were clear. It was not a tender heart nor was it chivalry which prompted him to do the deed of valor just described. He had started out to do his duty by James Bansemer because he was in his hire, and he felt it his duty to cover the tracks of his master as best he could. He knew that he was jeopardizing his own safety by the obstinate cunning of his nature insisted that the man he had watched was Bansemer, although his brief glimpse of the fugitive's face discouraged that belief.

The gaunt clerk kept his chin well covered with his great muffer, the broad collar of his ulcer was turned up about his face. The rapid plan that flashed into his mind comprehended but two things, the effort to restore life to Frances Cable and the hope of escaping without being recognized. He felt that she had not been in the water long enough to drown, and he depended upon the force of the blow that he imagined had been delivered.

Chilled to the bone, his teeth chattering like castanets, the old man was stooping over the inanimate form on the ground when the two men came up. In answer to their startled questions he merely said that he had seen the struggle from across the street, but had been too late to prevent the tragedy.

"We must get her into one of these houses quick," he grunted. "Take hold of her, you. And you over there,

Chilled to the bone, his teeth chattering, hurled and ring a doorbell. Get inside and phone for a doctor—a doctor first and then the police. We may be able to save her life."

The first of the rich men's houses denied them admission. The man of the house said he would not "stand for the notoriety." Droom, supporting the commands of the wet, icy figure, made a remark which the man could not resist. At the second house they were admitted.

In an instant all was confusion. A dark figure was broken up and guests of the house assisted their host and hostess in doing all manner of unnecessary things. Droom gave the commands while the young fellow saved themselves into excited, wrathful demands upon the telephone operator, calls for a certain nearby doctor, calls for the police, and called attention to the man, the woman and the young fellow who had assisted in carrying her to the house arrested him. A great sense of relief crept over him as he listened to the ringing of the doorbell. He blinked with satisfaction. He was forgetting his own remark of a minute ago that he was freezing and must get into some dry clothes at once. The young man was saying:

"It happened right over there by the sea wall—where the big break is. Harry and I were coming up the Drive, and I called attention to a man running south along the wall. Just then this gentleman ran over from this side of the street, and a minute or two later we saw him jump into the break over there. Suicide, I thought, but he wasn't a minute coming up. There was the woman! He pulled her out of the water. It was the bravest thing I ever saw. He—"

And then it was that everybody began to shower praise upon the man who had not only done his duty, but the one who hired him to do duty, not gallant, deeds.

"Did you watch which way the robber fled?" demanded Droom eagerly.

"Lost him in the dark. He ran like fury. You must have scared him off," said the second young man. "I wish we could have seen his face. Did you see it?"

"Not distinctly," answered Droom.

He struck me as being a slim young fellow, that's all. Of one thing he was assured, the evidence of the two men would prove that he had acted as a valiant protector and not as a thief, a fear which had not left his mind until now. They had seen the fleeing assailant, but there was only one person who could identify him. That person was Frances Cable, the victim. If it was not James Bansemer, then who could it have been?

The door opened, and an agitated young woman came out.

"What Mr. Cable?" she cried in trembling tones.

The physician arrived at that moment, and a few minutes later came the doctor, who was conscious of the doorway. While the policeman was listening to the voluble young eyewitnesses Droom stood aloof, puzzling at rest. There was no suggestion of an inside mystery. He had been ready a few minutes before to curse himself for pulling the woman out of the water, but now he was stronger within him than his assailant was not James Bansemer his viewpoint changed. If such was the case, he was not to be blamed for Mrs. Cable's story. It was conscious finally that some one was speaking to him to tell it. On the other hand, if it was Bansemer, he had rescued her for an ill purpose. "What is your name and where do you live?"

"My name is Elias Droom, and I live over in Wells street."

"Could you identify the man?"

"I don't think so."

"What were you doing over in that part of town?"

"Walking up to see the skaters on the Rialto. But was a man that got to do with it? You'd better be on looking for the thief instead of wasting time on me here," snarled Droom. The doctor, who was conscious of the doorway, while the policeman was listening to the voluble young eyewitnesses Droom stood aloof, puzzling at rest. There was no suggestion of an inside mystery. If such was the case, he was not to be blamed for Mrs. Cable's story. It was conscious finally that some one was speaking to him to tell it. On the other hand, if it was Bansemer, he had rescued her for an ill purpose. "What is your name and where do you live?"

"My name is Elias Droom, and I live over in Wells street."

"Could you identify the man?"

"I don't think so."

"What were you doing over in that part of town?"

"Walking up to see the skaters on the Rialto. But was a man that got to do with it? You'd better be on looking for the thief instead of wasting time on me here," snarled Droom. bound for Bansemer's home. What he said to James Bansemer on that memorable occasion need not be repeated. It is only necessary to say that his host was bitterly impressed and willing to admit that the developments might prove serious. They could only speculate as to what had transpired between David Cable and his wife out there by the sea wall, but it was enough for him to know that a crisis was at hand.

"We'll see what the morning papers say about the affair," said Bansemer, uneasy and cold.

The morning papers were full of the sensational robbery, the prominence of the victim and the viciousness of the attack. Elias Droom read the account. He felt that he was in the midst of the thing, bright and early. He grinned appreciably over the share of glory that fell to him, and he actually smiled over the new developments in the great mystery.

He had observed with relief that the name of James Bansemer was not mentioned. The reports from the bedside of the robber's victim were most optimistic. She was delirious from the shock, but as the doctor's reports were expected. The great headlines on the first page of the paper were reading set his mind temporarily at rest. There was no suggestion of truth in them.

back into the dense shadows. Like a flash it occurred to him that they were searching for the body. A shriek of agony arose to his lips. But he checked it.

Far off on one of the cross-town streets a newsboy was calling an extra—hoarse, unintelligible shouts that he had found his car. He bent his ear to catch the faraway words of the boy. "All about de no' side murder!" He cringed and shook under the raucous shout of the newsboy who had caught him.

A policeman suddenly turned the corner and came toward him. The first impulse was to fly; the next was to stand bravely himself. The resolution came with shocking unexpectedness. He would give himself up. He would admit that he had killed his wife. The words of anguish were on his lips when the policeman spoke.

"Is it you, Mr. Cable? How is she, sir?"

Cable did not hear the man, for as he opened his lips to cry out his own guilt, a thought formed in his brain that almost staggered him with its cunning savagery. Why not let the guilty fall on James Bansemer? She had gone out to meet him! If she had not destroyed the note it would hang James Bansemer, and James Bansemer was worse than a murderer. But even as this remarkable thought rushed into his brain the last words of the officer began to drive it out.

"Is she going to pull through, sir?"

"Pull through?" he murmured heartlessly, harshly, sir.

"Good Lord, Mr. Cable—I forgot. Don't you know about it?" gasped the officer.

"Know what?" asked Cable, completely dazed.

"Go home at once, sir. I didn't mean to—oh, hurry, sir. Don't be worried. They say she'll be all right. Sure! She's been hurt a little, sir."

"My daughter?" demanded Cable, as he went to pull himself together. His heart was trying to jump from his body.

"Your wife, sir. Nothing serious, sir. She's been hurt a little, sir. Don't be worried. They say she'll be all right. Sure! She's been hurt a little, sir."

But Cable was off like a deer for his home, racing as though on an instant. She was alive! He could have her again! He loved her as he never had loved her before.

### MEDALS FOR BRAVERY.

Decorations That May Be Bestowed by Uncle Sam.

Uncle Sam is not averse to bestowing decorations, says the Philadelphia Press. While the constitution prohibits appointment of officers and privates from foreign governments, the president has the power to award insignia, which mean considerably more than most of the stars, crosses, etc., of the old world. These are medals for bravery.

Besides the medals for conspicuous bravery in battle and the decorations for life saving on the water, the chief executive can honor men and women who display heroism on the railroad lines of the country.

Award of the decorations is made by the chief executive on recommendation from the interstate commerce commission. Applicants are nominated by affidavits from eyewitnesses of the heroic deeds, and they must be approved by a committee of five of the commissioners.

The medal is about as big as a silver dollar. On one side the reverse, there is a picture of a man in a military uniform, with one knee upon a rock which blocks an approaching train. He is raising the trainmen by means of a bar.

On the reverse side is a laurel wreath, symbolical of heroism. The inscription, "The United States Medal for Life Saving on Railroads," appears near the medal's rim, and within the wreath is the following: "For Bravery. Awarded to—"

Japanese Compositors.

Japanese "types" have their troubles. K. Sugimura, literary editor of the Tokyo Asahi Shimbun, says that he especially admires the linotype typesetting machines. "Unfortunately we are unable to use them in Japan, for our language has forty-seven characters as well as over 2,000 Chinese characters, and such a number of types is, of course, beyond the capabilities of any machine yet invented. In the printing office of our newspaper in Tokyo the compositor must often walk the whole length of the room to fetch one character, instead of standing in one place while the printer does the English or American compositor can do."

Even in Bedlam.

The manager of the insane asylum frowned.

"What is that woman in cell 77 howling and shrieking about?" he asked impatiently.

"She's talking to her straitjacket, sir," the keeper answered.

"Wants it taken off, eh? Well she can't."

"No, it isn't that, sir," the keeper interrupted. "She wants it changed for one with the fashionable sleeves that have just come in."

## ON A MAN-OF-WAR. ENGLISH TITLES.

Hints to Landlubbers Who Want to Do the Proper Thing.

As you pass over the ship's side and stop aboard, if you are a man touch your hat to the flag. The officer of the deck, who represents the majesty of the nation while he is on watch, will return this salute.

Don't say "downstairs" or "upstairs." There are no stairs on board ship—only ladders. Say "below" or "on deck."

Looking forward—that is, toward the bow—the right hand is "starboard," the left hand "port." Everything on board ship is starboard or port, except with reference to a gun, where "right" and "left" are used as on shore, the gun being movable.

Keep clear of the starboard side of the quarter deck. This quarter deck is the officer's or rent-end of the upper deck. Its starboard side is sacred territory, to be used by the admiral, the captain, the officer of the deck, other officers and men when there on duty and official visitors.

Never peep into the officers' private quarters. They are no more to be entered than into a private citizen's bedroom. They can be entered only upon invitation.

Keep your hands off the bright brass work, the polished guns and the clean paint work. Remember that jack tar has to put in hard labor every day keeping these clean. Do not increase his labor by touching them.

Do not expectorate on the decks. This warning is unnecessary to gentlemen, who do not expectorate in public places.

Never dream of tipping a man who shows you about the ship. He is sufficiently rewarded by the entertainment which he gives to you. The ship's men are not servants, and they resent a tip. The navy has pride.

Never take a lady up or down an "undressed" ladder. It is inadvisable for the lady. "Dressed" ladders have flags or canvas spread beneath them. "Undressed" ladders have no such screens.

Upon leaving the ship salute the flag as upon coming aboard.—San Francisco News Letter.

Animals and Odds.

Writing in Suburban Life, Charles D. Kellogg, the well known naturalist, says: "The matter of odor is an extremely interesting one. Most creatures have an odor which indicates friendliness and another which indicates alarm. Always holding the thought of love toward every living creature, just as I have tried to instill into the mind of Don, my dog, I have observed which animals are friendly, reptile, bird or insect. My first thought of a reptile odor was that of apples. Yet people told me that this creature gives off a noxious odor."

Now, this latter odor is present in any wild creature's body when it is disturbed. The bodies of human beings give off an odor which is keenly apparent to wild creatures and indicate the feeling which men and women have for them, whatever it be, love, fear or hate.

"I am sure of your old girls today," began the wife.

"And I saw one of your old boys," responded the husband. "Suppose we call it a tie and switch the conversation to something else."

It was so agreed.—Kansas City Independent.

Peonies.

Peonies were originally esteemed less for beauty of bloom than for value as a medicine. In recognition of its curative virtues the peony was named after Paeon, the physician of the gods. An old writer says: "About an infant's neck hang peonies. It cures Alectryon's cruel malady." Nor did the use of the plant stop there, for peony water was esteemed and drunk in bygone times, though whether as medicine or merely as a refreshing temperance beverage is more than modern writers can say.

A Banquet.

"read before you would do you good a stomach it is eaten by worms. That's reason your baby is ailing, cross, stiff and thin. Give it White's Emulsion. It will expel the worms and act as a tonic for the child."

## CLERGY INDORSE TAFT

Class Him as Highest Type of Christian Gentleman.

### FREQUENT HIS HEADQUARTERS

Declare He Is Broad Minded and Represents Ideals of Best Statesmanship—A Bishop's Opinion of the Republican Nominee.

"Because he is the highest type of the Christian gentleman."

This is the way in which I heard the pastor of a Methodist church in southern Illinois end an argument with a layman on the train coming over here from St. Louis, says the Washington correspondent of the St. Louis Globe-Democrat in a dispatch to his paper from Cincinnati. The dispatch continues: The layman, paying due respect to the cloth of his opponent, was trying to convince him that he should not support Mr. Taft for the presidency and instead should vote for his Democratic opponent. The churchman defended the principles of the Republican party and, as indicated, defended the man for whom he said he expected to vote from his personal standpoint of a churchman, "because he is the highest type of a Christian gentleman."

It gave me a new idea about Mr. Taft. It seemed to answer some of the criticisms I had heard of the Republican candidate and his creed. In recent years the Democratic candidate has interfered his well paid Chattanooga lectures with Sunday sermons before religious and semireligious societies. It seems that he has made the most of this influence in this campaign, and I was curious to discover on my arrival here whether there was support from the church and semireligious elements in the country for the Republican nominee.

My arrival in this connection could not have been better timed. As I entered the office of Mr. Taft's private secretary Friday I saw Bishop J. C. Hartzell of the Methodist Episcopal church emerging from a conference with Mr. Taft. The bishop, I knew, has episcopal supervision over the work of his great church in Africa. He has been engaged for the past twelve years and has met and formed the acquaintance of many leading men not only in Africa, but in Europe and America. His acquaintance and influence within the Methodist church are second to those of few men, as he has for fifteen years been the president of a society which founded and now maintains a system of institutions of learning among both white and colored people in the southern states. He came to induce Mr. Taft to make a speech in Chicago before a society of which the bishop's son, Rev. M. C. Hartzell, is president.

It seemed odd to attempt to interview a churchman of his prominence on a political question at the headquarters of the Republican candidate but I asked him if he was in favor of Mr. Taft and the support of him by Christian people. He answered very readily: "The American people are to be congratulated upon the fact that whether Mr. Taft or Mr. Bryan is elected president of the United States they will have a man at the head of the nation who is not only clean in moral character, but whose pen and speech and example are always for the best ideals of our civilization as represented in the teachings of the Christian religion."

The bishop thought for a moment and then continued: "On some theological points I differ from both. As good Presbyterians I am opposed to Bryan because of the doctrine of 'divine decrees,' which teach that from all eternity it has been fixed who should be saved and who should be lost. I do not so read Scriptures. Mr. Taft, I understand, is one of the Edward Everett Hale type, believing that Christ was a divinely perfect man whose precepts and life on earth are the key to man's salvation in time and eternity. With the church I believe that in that perfect man dwelt the divine nature."

Applying his discussion in a practical way, Bishop Hartzell continued: "Which of these men I shall vote for will not be decided by their moral beliefs, but what they are as men and by the principles and policies they stand for in the administration of the government. I believe that in acting upon this view, as an American citizen, I am in harmony with the spirit and purpose of the founders of our republic, who put into the constitution that there should be no religious test as to qualifications to any office of public trust under the United States. My conviction is that the future of the nation depends very largely upon our people heeding that constitutional prohibition. Our nation owes much in moral character, statesmanship, literature, art and religion to those who have not been in strict harmony with some of the dogmas of the church. The days of the inquisition are past."

Secretary Root on Taft Wars. Threatened riot was between the United States and Germany and the United States and France have been averted by commercial agreements under the power conferred upon the president in the third section of the Dingley tariff act.

Perhaps the Bryan managers display such fondness for campaign railroads because they dream of the traditional pots of gold at their end.

It is possible to concede that after Mr. Gompers' speeches in Texas that state may go Democratic.

### DUNCAN OFFERS GOMPERS' IDEA.

James Duncan, first vice president of the American Federation of Labor and International secretory-treasurer of the Granite Cutters' International Association of America, has sent out numerous identical letters declaring the absolute independence from partisanship of the American Federation of Labor. The letter is written on the stationery of the Granite Cutters' union. Mr. Duncan is next in command of the American Federation of Labor to Mr. Gompers, and his letters are a direct repudiation of the attitude of the president of the American Federation of Labor in taking the organization into politics and exerting its influence to elect Bryan and Kern. Mr. Duncan is not advising union workmen to vote either for Bryan or Taft, but to rely on their own judgment and to exercise their own individual preference. The letter is as follows:

Sept. 17, 1908.

My Dear Sir—Your inquiry is similar to a number of other inquiries on the same subject and therefore needs the general answer.

The labor movement of our country, in as far as the political situation is concerned, is now, as heretofore, independent of parties. Those who have given the greatest thought to the subject within the ranks of organized labor have been busy from year to year for a long time, and of these men, teaching or at least advising organized workers to not be bound to any particular party, but to the public needs and to the aspirations upon his merits and not because of his belonging or not belonging to any particular party. The intensity of recent events has caused more activity among the organized workers, in as far as political affairs are concerned, than in the past, and we may expect as men become educated to the public needs and study the science of government they will become still more active politically.

The labor movement advises study of the different subjects and principles of the great political parties and of the election this year and the campaign leading up to it, as far as organized labor is concerned, will be no exception to that rule. Very truly yours, JAMES DUNCAN.

Lightning has struck the Bryan farm, but it has a confirmed habit of not striking the owner.

## Where Did It Come From? A Story in Seven Chapters.

I. Mack and the Campaign Fund. (New York Newspapers.)

Just before leaving New York for Chicago Chairman Mack of the Democratic national committee said that he had secured \$300,000 from the past committee administration.

II. What William Randolph Hearst Said In His Speech at Columbus, O., Sept. 17.

"Mr. Roosevelt prosecuted the Standard Oil, and the Standard Oil went out of the Republican party and into the Democratic party. The Democratic party welcomed it. Mr. Bryan appointed C. N. Haskell, political paymaster of the Standard Oil, to be chairman of his committee on platform. After a platform had been drawn up by Mr. Haskell which was satisfactory to the Standard Oil Mr. Bryan made Mr. Haskell treasurer of his national campaign fund to collect from the Standard Oil substantial evidence of the great monopoly's appreciation."

III. What President Roosevelt Said.

"Governor Haskell stands high in the councils of Mr. Bryan and is the treasurer of his national campaign committee. \* \* \* The publication of this correspondence not merely justifies in striking fashion the action of the administration, but also casts a curious side light on the attacks made upon the administration both in the Deaver convention, which nominated Mr. Bryan, and in the course of Mr. Bryan's campaign."

IV. What Haskell Said In His Telegram to Hearst on Sept. 19.

"Should this committee (of newspaper editors) find your charges sustained I shall withdraw from all connection with the present presidential campaign."

V. What Chairman Mack Said.

"I regarded the question as to whether Taggart had turned over \$300,000 to me as a joke, and my answer was intended as a joke also."

VI. What Governor Haskell Said. (From New York Evening Post, Sept. 22.)

Kansas City, Mo., Sept. 22.—Charles N. Haskell, governor of Oklahoma and treasurer of the Democratic committee, passed through Kansas City last night, bound for his home in Oklahoma, from the east, where he has been making speeches. \* \* \* As his train pulled out Mr. Haskell shouted, "And don't forget to say that the campaign fund is growing fine."

VII. What Governor Haskell Did. (From Newspapers of Sept. 26.)

Chicago, Sept. 26.—Governor Charles N. Haskell of Oklahoma resigned as treasurer of the Democratic national committee shortly after midnight after a protracted conference with Judge Wade of Iowa and Josephus Daniels, director of the Democratic publicity bureau.

### AGAINST CORPORATIONS.

Judge Taft's Decision in the Narramore Personal Injury Case.

If men who labor come to know Mr. Taft and study what he has done for their interests they will wonder how there could be any sincerity in the attempt by the Democratic party to prejudice labor against him.

Take the Narramore personal injury case in Ohio, which when considered should forever set at rest all this manufactured talk for political effect charging Mr. Taft with being the "father of government by injunction." Judge Taft's decision in the Narramore case when he was on the bench has been of tremendous benefit to employee as against employer in Ohio in personal injury cases.

The facts of the Narramore case are these: Early in 1899 Narramore was a brakeman on the Big Four road. One day while at work his foot caught in an unlocked frog. A train came along, and he was maimed for life. The railroad refused to do anything for him and his wife and children dependent upon him for support. Narramore sought the aid of the courts.

Ohio law held that the frog should not have been left open and courts generally held that an employee, knowing that his employer was in the habit of disobeying a law intended for the employee's protection, by continuing at work assumed the risks of the employment. The judge before whom the case was tried promptly dismissed the complaint.

On appeal the case reached the United States court of appeals and came before Judge Taft. Judge Harmon argued very masterfully for the railroad, but the Republican candidate for president went squarely against Ohio court precedents and of courts in many other parts of the country in rendering a decision in favor of Narramore. In his decision Judge Taft said:

"The intention of the Ohio legislature was to protect the employees of railways from injury from a frequent source of danger by compelling the railway company to adopt a well known safety device. And, although an employee impliedly waives a compliance with the statute and agrees to assume the risk from unlocked frogs and switches by continuing in the service without complaint, this court will not recognize or enforce such agreement. The imposition of a penalty for the violation of a statute does not exclude other means of enforcement, and to permit the company to avail itself of such an assumption of risk by its employees is in effect to enable it to nullify a penal statute and is against public policy."

Judge Taft's decision still stands as the law in federal courts. When the common pleas court in Cleveland granted an opposite stand in 1903 the Ohio legislature in the spring of 1904 passed a law which made Judge Taft's decision one of the laws of Ohio. Who shall estimate the service that Judge Taft performed for all who labor in dangerous employment by his decision in the Narramore case, which made the law on the side of those who work?

The decision in the Narramore case was against gigantic corporate interests and in the face of Ohio supreme court decisions, but Judge Taft found a way to justice through the meshes of the law skillfully laid out to do in calculating service for all time to those who labor. His record on the bench is not one requiring explanation, but demanding, to see its convincing justice and fairness. In all this talk for the purpose of creating misguided prejudice there is not a Democratic politician who has said that any of his decisions were wrong.

In all his career Judge Taft by deeds has shown the broadest sympathy for all who labor, and he will go far further than he is efforts in their behalf, but he is not indulging in cheap talk of the Democratic type of misrepresentation to catch a vote.

### WORLD BLAMES BRYAN.

Says He Must Have Been Familiar With Haskell's Record. (From the New York World, Sept. 27.)

The main fault to be found with Governor Haskell's resignation as treasurer of the Democratic national committee is that it came a week too late.

Haskell should have been forced out at once, and Mr. Bryan should never have challenged Mr. Roosevelt to prove the Hearst charges or any other charges against the Oklahoma governor. Mr. Bryan must have known Haskell's record when he assumed personal responsibility for the man. If he did not it was because he had chosen to be "in the future from information." It was inevitable that the moment Mr. Roosevelt succeeded in making an issue of Haskell's record the Democratic administration would be compelled to drop him. The attempt to defend him was a sorry political blunder.

President Gompers and the Democratic Party.

President Samuel Gompers has allied himself with Bryan and the Democratic party.

Has he acted wisely? The majority of the Democrats in the national house of representatives come from the south.

The south is an enemy of union labor and believes in child labor. Some southern states have no laws limiting the hours labor for women and children, and some have regulations that are not enforced.

What does Gompers expect from a party dominated by the south? What benefit can the rank and file of labor receive by following President Gompers politically?—Wage Earner.

WEDNESDAY, OCTOBER 21, 1908.

The reason why you should vote for Taft, is he is qualified for the Presidency. Bryan is not.

Yes, Bryan has a record. It can be found up at Ed. Alexander's in his phonograph.

The little old log cabin has the right of way this time on the ballot. Had you thought of that, in old Kentucky?

The people are now voting for the man of standing, character and experience. We have these men in Taft and Johnson. Vote for them.

Bryan will father any doctrine that he thinks will get votes. This is a pretty hard thing to say of a man of Mr. Bryan's standing, but it is true and his record proves it.

Jerry Tilford has been conductor on the Branch Train so long that he knows the names of all the women and children who travel and the names of all the dogs that bark at the trains. Jerry is in love with his job, so are the traveling public with him.

Dr. Gaddie is going over the district trying to make capital out of a few donations. Col. Johnson made to some churches and it is a fact that he was liberal in this way and helped one and all who asked for help. It is no discredit to him. His giving shows a big heart and a liberal christian spirit.

Ben Johnson can help us in our fight for the improvement of the Ohio River. Breckenridge county is vitally interested in this improvement. She has more miles of water way than any other county in the district and a nine foot stage of water in the Ohio would benefit her immensely. Ben Johnson's influence and his work for this measure would be worth ten times as much as the little influence of a man like Gaddie.

Your duty as an American citizen demands that you vote for the man best qualified to represent you regardless of party. No man can question Ben Johnson's qualifications. He has been tried all along the line and proved true to himself and the people. Dr. Gaddie is an unknown quantity. Not known outside his home town. His only reason for being a candidate is he hopes to get in line for a Post Office or some fat government position.

## MIX THIS.

Prepare At Home By Shaking Ingredients Well In A Bottle.

What will appear very interesting to many people here is the article taken from a New York daily paper, giving a simple prescription, which is said to be a positive remedy for backache or kidney or bladder derangement. If taken before the stage of Bright's disease:

Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces. Shake well in a bottle and take in teaspoonful doses after each meal and at bedtime.

A well-known druggist here at home, when asked regarding this prescription, stated that the ingredients are all harmless and can be obtained at a small cost from any good prescription pharmacy, or the mixture would be put up if asked to do so. He further stated that while this prescription is often prescribed in rheumatic affections with splendid results, he could see no reason why it would not be a splendid remedy for kidney and urinary troubles and backache, as it has a peculiar action upon the kidney structure, cleansing these most important organs and helping them to sift and filter from the blood the foul acids and waste matter which cause sickness and suffering. Those of our readers who suffer can make no mistake in giving it a trial.

## A VILLAGE HOME

Where Per-na Is Used As An All-Round Reliable Family Medicine.

There Are Thousands of Similar Homes In Which Per-na Is Being Used With the Same Excellent Results.

Fountainville, Pa., Feb. 16, 1902. S. B. Hartman, M. D.

Dear Sir: I have been thinking of writing to you for some time to let you know what Per-na did for me. I am 57 years old. I lost my health about six or seven years ago. I first had dyspepsia and employed different doctors.

Last year I injured one of my kidneys. I had one of the best doctors for that. He put me to bed, not to move for two weeks.

I slowly recovered, but was so weak and prostrated that I could walk but a short distance. In fact I had to keep quiet.

I took several remedies, but obtained no relief. I also had catarrh in some form.

My wife advised me to take Per-na, and it is with pleasure that I can say that by taking one and one-half bottles of your Per-na, it cured me and I feel all right. I send this with many thanks to you, as I enjoy life again.

My wife has also been taking your Per-na for asthma and it helps to relieve her. We keep your Per-na in the house constantly. Again I say I thank you for Per-na.

Sincerely yours, PHILIP KRATZ.

Fountainville, Pa., Nov. 9, 1903. Dr. S. B. Hartman.

Dear Sir: I have good health now and your valuable medicine gave me good health. I have had no doctor for some

time, as I do not need any. When I take cold I take Per-na and in a short time I am all right. My wife is subject to asthma. She takes Per-na at that time, and she has had no need for a doctor for some time. With many thanks for your medicine, we remain, Sincerely yours, PHILIP KRATZ.

Fountainville, Pa., April 16, 1905. Dr. S. B. Hartman.

Dear Sir: We have Per-na in the house all the time and when we think we need it, we take it. We are about sixty years old and have not called a doctor to our place for some years. We go out in all kinds of weather and when we go on a trip we take Per-na along. A preventive is better than a cure. That has been our experience.

I had poor health some years ago and when I found your medicine I hit the right thing. We both thank you for your good medicine.

Sincerely yours, PHILIP KRATZ.

Witness to Signatures.

I, John Donnelly, Mayor of Doylestown, Pa., have been acquainted with Mr. Philip Kratz for 25 years. I know him to be an honorable and useful citizen. He, in my presence, signed the above statements concerning Per-na, which I have every reason to believe are true in all particulars. SIGNED, JOHN DONNELLY, Mayor.

## HOW UNCLE SAM'S FORESTS ARE PROTECTED FROM FIRE.

Nothing could better call the attention of thinking people to the necessity for the preservation of our natural resources than the great forest fires which have been so widely distributed throughout the country and have played such havoc this summer. It is doubtful if the losses for the year 1908 will ever be fully known, but a conservative estimate by Dr. W. J. McGee, Erosion Expert; United States Department of Agriculture, places the aggregate loss in all parts of the country during these months of conflagration at \$1,000,000 a day.

In nearly every instance, probably in every instance, these devastating fires might have been prevented if the various states had provided an adequate

number of men to patrol the woods and arrest such fires in their incipency and if lumbermen and other users of the forest were careful to dispose of brush after logging so as to prevent the spread of fires.

Uncle Sam has had a lot of work to do on his National Forests in the fire-fighting line this year, but his work has shown good results. Exclusive of the salaries of forest officers, the work of putting down fires on the National Forests for the year has cost the government \$50,000. This means protecting approximately 108,000,000 acres. The value of the timber destroyed will not be known until the fire reports are made at the end of the year, though it is estimated that it will be larger than last year. But it will be insignificant when compared with the appalling fire losses outside of the National Forests and unprotected areas, or with the destruction which would have come to the timber in the National Forests had they not been protected.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

## DOCTOR ADVISED USE OF CUTICURA

After Other Treatment Failed—  
Eczema in Raw Spot on Baby  
Boy's Face Lasted for Months—  
Cried with Pain when Washed.

**ECZEMA WAS CURED AND  
HAS NEVER REAPPEARED**

"Our baby boy broke out with eczema on his face when one month old. One place on the side of his face the size of a nickel was raw like beefsteak for three months, and he would cry out when I bathed the parts that were sore and broken out. I gave him three months' treatment from a good doctor, but at the end of that time the child was no better. Then my doctor recommended Cuticura. After using a cake of Cuticura Soap, a third of a box of Cuticura Ointment, and half a bottle of Cuticura Resolvent he was well and his face was as smooth as any baby's. He is now two years and a half old and no eczema has reappeared. I am still using the Cuticura Soap; I think it is the finest toilet soap I ever used. I keep my little girl's hair and face cleansed with it too. I am so thankful for what Cuticura has done for us. Mrs. M. L. Harris, R. F. D. 1, Alton, Kans. May 14 and June 15, '07."
